Superintendent's Message: "Relocation of Central Offices"

Dear Parent/Guardian,

The Pascack Valley Regional High School District Central Offices have relocated. The new address for the business office, technology department, and superintendent's office is now:

28 West Grand Avenue, Suite 2, Montvale, NJ 07645

All phone numbers and email addresses remain unchanged.

District offices have relocated due to the construction project that will commence at Pascack Hills' Upper Campus. The Board has authorized the construction of a girls softball field, a fifth tennis court, increased parking access, and handicap accessible stadium bleachers for Pascack Hills. The improvements to the upper field will result in both Pascack Valley and Pascack Hills having similar outdoor athletic facilities on their respective campuses.

To make way for the field improvements, the old board office and superintendent offices need to be demolished and relocated. The Board of Education recognized that, in today's corporate rental market, it was significantly less expensive for the board to relocate to vacant office space in the district as opposed to constructing a new administrative office building. Thus the move to 28 West Grand Avenue in Montvale.

We look forward to the improvements for our student – athletes and will periodically update you on the progress we are making! Construction will commence in the next few weeks. Site clearing will follow shortly thereafter. By the end of the fall, construction will be complete!

Sincerely,

A handwritten signature in black ink, appearing to read "P. Erik Gundersen".
